PROFESSIONAL SUMMARY
Frontend Developer with 2 years of experience building responsive web and mobile apps using React and React Native. M.S. in Computer Science with a strong focus on clean UI, reusable components, and real-world usability.

TECHNICAL SKILLS

- **Languages & Frontend Technologies:** JavaScript, HTML, CSS, React, React Native, Redux, REST API, Tailwind CSS, Bootstrap, Material UI
- **Development Tools & Frameworks:** Visual Studio Code, ESLint, Storybook, Metro Bundler, Postman, Docker, Xcode, Android Studio

- **Version Control & Collaboration:** Git (GitHub), Subversion (SVN), Atlassian Suite (JIRA, Confluence), Figma, Microsoft Office Suite
- **Database:** Oracle-DBA, Oracle SQL, MySQL
- **Operating Systems:** Windows, Linux
- **E-commerce platform:** Magento

PROFESSIONAL EXPERIENCE

Frontend Apprentice Software Developer
Code the Dream Labs Development Shop – Remote   **03/2024 - Present**

Web Development

- Rebuilt and modernized critical UI flows in *Vamos*, a cross-platform outreach app used by agencies serving migrant and seasonal farmworkers across the U.S.
- Built and modernized responsive, accessible components using **React** and **Tailwind CSS** to align with new design standards and improve maintainability.
- Developed reusable components and complex pages (e.g., reset password, detail views, filters), streamlining frontend scalability and reducing maintenance overhead.
- Implemented dynamic, data-driven UI flows powered by **URL parameters** and **REST API** integrations.

Mobile Development

- Improved **cross-platform UI** consistency in **React Native** for **Android** and **iOS**, resolving layout discrepancies.
- Enhanced offline workflows by debugging and optimizing encrypted form handling in mobile contexts.
- Optimized rendering performance and navigation responsiveness for mobile users.

PROJECTS

E-commerce Music App *BeatBazaar* - GitHub   **08/2023 - 02/2024**
- Collaborated in an Agile team to deliver front-end features for BeatBazaar, an E-commerce Music App, contributing to a seamless and responsive shopping experience
- Implemented a robust Redux store to manage the shopping cart state, and built reusable React components to support core functionality such as add-to-cart and wishlist interactions
- Designed and integrated a responsive checkout page with Stripe payment processing, along with a visually engaging checkout completion page that displays real-time payment updates and detailed order summaries

Pet Adoption App *Adopt the Dream* - GitHub   **03/2023 - 07/2023**
- Led a 5-person development team using JIRA to manage tasks and collaboration, delivering a feature-rich adoption platform on time within a two-month timeline
- Implemented robust front-end authentication, including optimized Login/Signup flows, dynamic User Profile pages, and protected routes to ensure secure access and personalized experiences
- Built advanced filtering functionality to allow users to refine search results by specific criteria, enhancing real-time browsing and overall user engagement

EDUCATION
Kyiv National University of Civil Engineering and Architecture, Kyiv, Ukraine
Master of Science (MS) in Computer Science
PROFESSIONAL CERTIFICATES
Front End Development: Javascript, React Certificate by "Code The Dream", USA, 05/02/2023
Software Developer Apprenticeship Certificate, North Carolina Community College System (sponsored by Code The Dream), USA, 03/23/2025
